CONTENTS OF VOLUME XXXI

NO. 1. JANUARY 1968

Patterns of variation in waveform of averaged evoked potentials from prepyriform cortex of cats. FREEMAN, W. J. 1

Relation of pyramidal tract activity to force exerted during voluntary movement. EVARTS, E. V. 14

Response of thalamic neurons to thermal stimulation of the tongue. POULOS, D. A. AND R. M. BENJAMIN 28

Interplay of excitation and inhibition in the cat medial geniculate body. AITKIN, L. M. AND C. W. DUNLOP 44

Influence of centrifugal pathways on unit activity in the cochlear nucleus. COMIS, S. D. AND I. C. WHITFIELD 62

Pyramidal tract effects on interneurons in the cat lumbar dorsal horn. FETZ, E. E. 69

Inhibitory action of glycine on spinal neurons in the cat. WERMAN, R., R. A. DAVIDOFF, AND M. H. APRISON 81

Role of brain-stem auditory structures in sound localization. II. Inferior colliculus and its brachium. MASTERTON, R. B., J. A. JANE, AND I. T. DIAMOND 96

Early and late afterdischarges of amphibian sympathetic ganglion cells. NISHI, S. AND K. KOKETSU 109

Efferent olivocochlear bundle: some relationships to stimulus discrimination in noise. DEWSON, J. H. III 122

NO. 2. MARCH 1968

Activity of dendrites of single Purkinje cells and its relationship to so-called inactivation response in rabbit cerebellum. FUJITA, Y. 131

Discharge patterns of brain-stem respiratory neurons in relation to carbon dioxide tension. COHEN, M. I. 142

Organization of the medial vestibular nucleus. WILSON, V. J., R. M. WYLIE, AND L. A. MARCO 166

Synaptic inputs to cells in the medial vestibular nucleus. WILSON, V. J., R. M. WYLIE, AND L. A. MARCO 176

Action of tetrodotoxin on spinal motoneurons of the cat. BLANKENSHIP, J. E. 186

Analysis of spontaneous subthreshold activity in spinal motoneurons of the cat. BLANKENSHIP, J. E. AND M. KUNO 195

Behavioral effects of electrical stimulation of group I muscle afferents in acute thalamic cats. MALLIANI, A., G. CARLI, G. MANCIA, AND A. ZANCHETTI 210

Relation of the visual field to the lateral geniculate body of the albino rat. MONTERO, V. M., J. F. BRUGGE, AND R. E. BEITEL 221

Contrasting effects of two identified amygdaloid efferent pathways on single hypothalamic neurons. DREIFUSS, J. J., J. T. MURPHY, AND P. GLOOR 237

Receptive fields of single optic nerve fibers in a mammal with an all-cone retina. I. Contrast-sensitive units. MICHAEL, C. R. 249

Receptive fields of single optic nerve fibers in a mammal with an all-cone retina. II. Directionally selective units. MICHAEL, C. R. 257

Receptive fields of single optic nerve fibers in a mammal with an all-cone retina. III. Opponent color units. MICHAEL, C. R. 268

Spatial and temporal averages in retinal channels. MAFFEI, L. 283

A bulbar relay to the centre median. BOWSHER, D., A. MALLART, D. PETIT, AND D. ALBE-FESSARD 288

Receptive fields of single optic nerve fibers in a mammal with an all-cone retina. II. Directionally selective units. MICHAEL, C. R. 257

Receptive fields of single optic nerve fibers in a mammal with an all-cone retina. III. Opponent color units. MICHAEL, C. R. 268

Spatial and temporal averages in retinal channels. MAFFEI, L. 283

A bulbar relay to the centre median. BOWSHER, D., A. MALLART, D. PETIT, AND D. ALBE-FESSARD 288

The sense of flutter-vibration: comparison of the human capacity with response patterns of mechanoreceptive afferents from the monkey hand. TALBOT, W. H., I. DARIAN-SMITH, H. H. KORNHUBER, AND V. B. MOUNTCASTLE 301
Announcement 335

NO. 3. MAY 1968

Relations between unit activity and evoked potentials in prepyriform cortex of cats. FREEMAN, W. J. 337
Effects of surgical isolation and tetanization on prepyriform cortex in cats. FREEMAN, W. J. 349
Fornix and fifth-nerve interaction on thalamic units in awake, sitting squirrel monkeys. YOKOTA, T. AND P. D. MACLEAN 358
Projection of the visual vertical meridian to cerebral cortex of the cat. LEICESTER, J. 371
Slow synaptic responses and excitability in sympathetic ganglia of the bullfrog. LIBET, B., S. CHICHIBU, AND T. TOSAKA 383
Intracellular analysis of slow inhibitory and excitatory postsynaptic potentials in sympathetic ganglia of the frog. TOSAKA, T., S. CHICHIBU, AND B. LIBET 396
Pattern of retinotectal connections after retinal regeneration. CRONLY-DILLON, J. 410
Effect of atropine on the latency of cochlear potentials. GANNON, R. P. AND C. A. LASZLO 419
Binaural interaction in the superior olivary complex of the cat: an analysis of field potentials evoked by binaural-beat stimuli. WERNICK, J. S. AND A. STARR 428
Binaural interaction in the cat superior olive S segment. BOUDREAU, J. C. AND C. TSUCHITANI . . . 442
Electrical activity in the lateral geniculate body of the alert monkey associated with eye movements. FELDMAN, M. AND B. COHEN 455
Collateral pyramidal influences on the corticorubrospinal system. TSUKAHARA, N., D. R. G. FULLER, AND V. B. BROOKS 467

NO. 4. JULY 1968

Monosynaptic stochastic stimulation of cat spinal motoneurons. I. Response of motoneurons to sustained stimulation. REDMAN, S. J. AND D. G. LAMPARD 485
Monosynaptic stochastic stimulation of cat spinal motoneurons. II. Frequency transfer characteristics of tonically discharging motoneurons. REDMAN, S. J., D. G. LAMPARD, AND P. ANNAL 499
Motion detection by interneurons of optic lobes and brain of the flies *Calliphora phaenicia* and *Musca domestica*. BISHOP, L. G., D. G. KEEHN, AND G. D. MCCANN 509
Excitation and inhibition in cochlear nucleus. I. Tone-burst stimulation. GERSTEIN, G. L., R. A. BUTLER, AND S. D. ERULKAR 526
Excitation and inhibition in cochlear nucleus. II. Frequency-modulated tones. ERULKAR, S. D., R. A. BUTLER, AND G. L. GERSTEIN 537
Olivocochlear bundle stimulation: effects on spontaneous and tone-evoked activities of single units in cat cochlear nucleus. STARR, A. AND J. S. WERNICK 549
Rapid resistance shifts in cat cortex during click-evoked responses. KLIVINGTON, K. A. AND R. GALAMBOS 565
Synaptic noise and other sources of randomness in motoneuron interspike intervals. CALVIN, W. H. AND C. F. STEVENS 574
Nonlinear analysis of electroretinographic B wave in man. TROELSTRA, A. AND N. M. J. SCHWEITZER 588
Development of visually evoked potentials in kittens: specific and nonspecific responses. ROSE, G. H. AND D. B. LINDSLEY 607
Factors responsible for multiple discharge of neurons in Clarke's column. KUNO, M. AND J. T. MIYAHARA 624
Functional organization of the dog superior olivary complex: an anatomical and electrophysiological study. GOLDBERG, J. M. AND P. B. BROWN 639
Announcements 657

NO. 5. SEPTEMBER 1968

Excitation of pyramidal tract cells by intracortical microstimulation: effective extent of stimulating current. STONEY, S. D., JR., W. D. THOMPSON, AND H. ASANUMA 659
Relationship between afferent input and motor outflow in cat motorsensory cortex. ASANUMA, H., S. D. STONEY, JR., AND C. ABZUG 670
Generator potential of crotaline snake infrared receptor. TERASHIMA, S.-I., R. C. GORIS, AND Y. KATSUKI 682
Reinnervation of spinal cord by cholinergic neurons. BARNES, C. D. AND N. WORRALL 689
Reflex organization of cat masticatory muscles. KIDOKORO, Y., K. KUBOTA, S. SHUTO, AND R. SUMINO 695
Possible interneurons responsible for reflex inhibition of motoneurons of jaw-closing muscles from the inferior dental nerve. KIDOKORO, Y., K. KUBOTA, S. SHUTO, AND R. SUMINO 709
Analysis of slow inhibitory postsynaptic potential of bullfrog sympathetic ganglion. NISHI, S. AND K. KOKETSU 717
Modification of response patterns of lateral geniculate neurons after paired stimulation of contralateral and ipsilateral eyes. CHOW, K. L., D. F. LINDSLEY, AND M. GOLLENDER 729
Specific modalities and receptive fields of sensory neurons in CNS of the leech. NICHOLLS, J. G. AND D. A. BAYLOR 740
Effect of state of arousal on click-evoked responses in cats. WICKELGREN, W. O. 757
Effects of walking and flash stimulation on click-evoked responses in cats. WICKELGREN, W. O. . 769
Effect of acoustic habituation on click-evoked responses in cats. WICKELGREN, W. O. 777
Discharge of Purkinje and cerebellar nuclear neurons during rapidly alternating arm movements in the monkey. THACH, W. T. 785
Announcement 798

NO. 6. NOVEMBER 1968

Observations on a single auditory nerve fiber over a six-week period. SIMMONS, F. B. AND J. A. LINEHAN 799
Relationship of electrical activity in pontine reticular formation and lateral geniculate body to rapid eye movements. COHEN, B. AND M. FELDMAN 806
Sparing of photic frequency and brightness discriminations after striatectomy in neonatal cats. TUCKER, T. J., A. KLING, AND D. P. SCHARLOCK 818
Receptor types in cat hairy skin supplied by myelinated fibers. BURGESS, P. R., D. PETIT, AND R. M. WARREN 833
Dorsal column projection of receptors in cat hairy skin supplied by myelinated fibers. PETIT, D. AND P. R. BURGESS 849
Topology of the body representation in somatosensory area I of primates. WERNER, G. AND B. L. WHITSEL 856
Photically sustained on-responses of units in posterior hippocampal gyrus of awake monkey. MACLEAN, P. D., T. YOKOTA, AND M. A. KINNARD 870
Theoretical reconstruction of field potentials and dendrodendritic synaptic interactions in olfactory bulb. RALL, W. AND G. M. SHEPHERD 884
Effect of interaural time delay on amplitude of cortical responses evoked by tones. HIRSCH, J. E. 916
Spinal pathways mediating motor cortex evoked excitability changes in segmental motoneurons in pyramidal cats. STEWART, D. H., J. B. PRESTON, AND D. G. WHITLOCK 928
Spinal pathways mediating motor cortex evoked excitability changes in segmental motoneurons in pyramidal primates. STEWART, D. H. AND J. B. PRESTON 938
Announcement 947
Index 949

INDEX

ABZUG, C., 670
Acetylcholine
  spinal cord reinnervation by cholinergic neurons, 689
Acoustic stimuli
  atropine and latency of cochlear potentials, 419
  brain-stem auditory structures in sound localization, 96
  click-evoked potentials in cortex, rapid resistance shifts, 565
  click-evoked potentials, excitation and inhibition in medial geniculate body, 44
  click-evoked response at varying auditory sites, effect of arousal, 757
  click-evoked response in auditory system, 769, 777
    effect of acoustic habituation, 777
    effect of walking and light flashes, 769
  cochlear nucleus, centrifugal pathway influence on unit activity, 62
  efferent olivocochlear bundle, relationship to stimulus discrimination in noise, 122
  frequency-modulated, excitation and inhibition in cochlear nuclei, 537
  primary auditory nerve fiber, long-term observation, 799
  superior olivary complex, field potentials evoked by binaural-beat, 428
  superior olivary complex, monaural and binaural tones in functional organization, 639
  superior olive S segment, binaural interaction, 442
  tone-burst, mechanisms of excitation and inhibition at cochlear nucleus, 526
  tone-evoked cochlear potentials after olivocochlear bundle stimulation, 549
  tone-evoked cortical potentials, amplitude-interaural time delay, 916
Afferent neurons, muscle
  electrical stimulation, behavioral effects on acute thalamic cats, 210
AITKIN, L. M. AND C. W. DUNLOP. Interplay of excitation and inhibition in the cat medial geniculate body, 44
ALBE-FESSARD, D., 288
Amygdaloid body, stimulation
  efferent amygdaloid pathways, contrasting effect on hypothalamic neurons, 237
ANNAL, P., 499
APRISON, M. H., 81
Arousal
  effect on click-evoked potentials in central auditory system, 757
ASANUMA, H., 659
ASANUMA, H., S. D. STONEY, JR., AND C. ABZUG. Relationship between afferent input and motor outflow in cat motorsensory cortex, 670
Atropine
  effect on postsynaptic potentials in amphibian sympathetic ganglia, 396
  effect on synaptic potentials of amphibian sympathetic ganglia, 383
  latency effect on cochlear potentials, 419
Auditory cortex
  cortical evoked resistance shifts, 565
  tone-evoked cortical response, interaural time delay effect on amplitude, 916
Auditory nerve
  single fiber, discharge characteristics observed via permanently placed electrode, 799
Auditory pathways
  brain-stem structures, role in sound localization, 96
  central, click-evoked potentials, effect of acoustic habituation, 777
  central, click-evoked potentials, effect of walking and light flashes, 769
  click-evoked potentials at varying sites, effect of arousal, 757
  descending, effect of direct-current stimulation on cochlear activity, 62
  medial geniculate unit response to click, 44

BARNES, C. D. AND N. WORRALL. Reinnervation of spinal cord by cholinergic neurons, 689
BAYLOR, D. A., 740
Behavior
  behavioral changes, affecting patterns in averaged evoked potentials from prepyriform cortex, 1
  sham rage after muscle-afferent stimulation in acute thalamic cats, 210
  stimulus discrimination in noise, relation of olivocochlear bundle, 122
